

**COMPANY PROFILE**

## **MISSION:**

**“To provide quality construction at an Affordable price.”**

## **VISION:**

**“To continue being an efficient general contractor working in an ethical and balanced manner to earn privilege of being the general Contractor of choice.”**

## Who We Are

Our company began in 2014 with the development of homes, and schools within the Kampala city.

Today, Excite Construction Limited continues that same hardworking motivation that not only makes us Kampala City's most trusted construction company, but helped us build long lasting relationships.

Under the current management of the company, those hardworking principles continue to make this an award-winning general contractor specializing in multifamily, commercial, institutional, municipal and historic renovation construction.

## About Us

Excite Construction Limited is a leading civil construction Company in the quality of civil and building construction.

We are specialists in civil building, our construction quality is time tested and our products are excellent.

We have skillful and professional staff that will help you all the way from concept/Plan development to design, build and implementation till you can achieve your ultimate needs.

## CLIENT SERVICES

At Excite Construction Limited, we work with you and your organisation from start to finish to identify all your construction wants and needs. To us, each project is as unique as the customers we serve.

**At Excite Construction Limited, we strive to provide customized Construction services to each of our clients.**

**Call us today to find out our experience in these service areas:**

- Sustainable Construction
- Company Approach
- Company Commitment
- Financial Strength

## Excite Construction Company Approach

Building a successful project is contingent on the management capabilities of the company performing the work and always based on client satisfaction.

Continuously building quality projects requires a company-wide mindset that unites all team members behind one main purpose - Building Excellence.

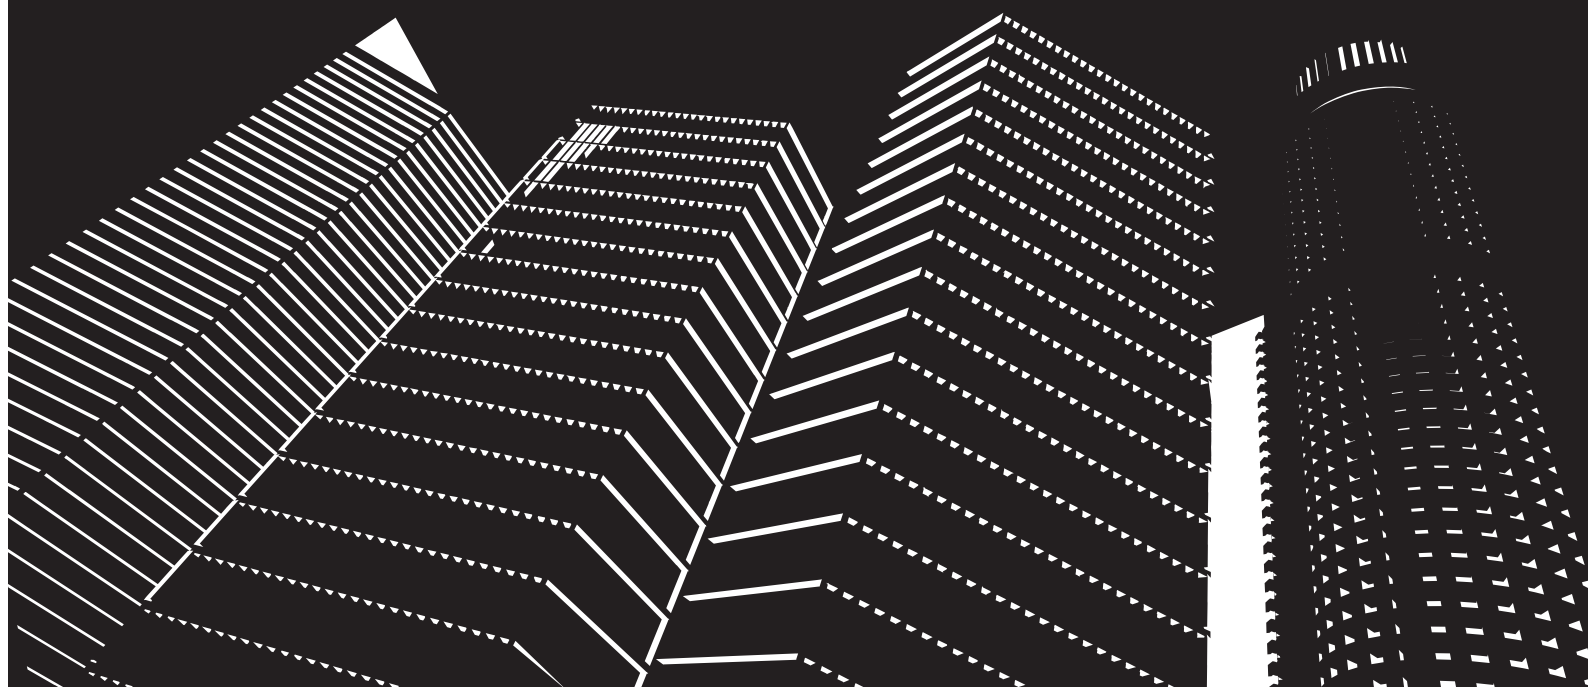

At Excite Construction Limited, we believe integrity and high performance standards must come from the top; this is why our senior executives are involved in our projects from day one and stay involved until the final completion of the project.

The key to professional project execution is fundamental anticipate and eliminate problems before they happen. Our team works with the owners, construction team, designers and engineers, with the detail that only specialists can provide, to plan, budget and schedule every aspect of your project. Once construction begins, sound management skills, seasoned field supervision and sophisticated computer project management technology work together with competent subcontractors and suppliers to keep your project on track. The result is a quality facility that is complete when promised, as promised.

## The Excite Commitment

A commitment is only as good as the company that makes it, building facilities that are economical, reliable and efficient has been Excite Construction Company's commitment since 2014. Our team of construction professionals offers a single source solution for all of your construction related needs. Whether it's restoration, site preparation, a new facility or facility renovation, we have the experience and personnel skills to provide the highest quality construction on schedule and within budget.

## Financial Strength

Our financial strength comes from the depth of our experience established for a year of history.

Our bonding capacity has grown to accommodate our largest projects and has helped us grow our management and technical resources for a year.

This long standing stability, along with our commitment to Building Excellence, provides our clients with the peace of mind and confidence that we have the resources to stand behind our work for many years to come.
